DETAILED ACTION

Election/Restrictions

1. Applicant's election of Group II (claim 50) in the reply filed on 9/7/04 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 50 is rejected under 35 U.S.C. 102(b) as being anticipated by Schoennagal et al. (4,298,453). Schoennagal discloses a gas reforming method comprising (Figs. 1 and 2): gasifying combustibles (coke) to produce a gas (synthesis gas) in a gasification process (Col. 10, lines 48-51); reforming (Col. 10, lines 59-62) said gas produced (via line 21) in said gasification process (20) using catalyst to produce a fuel gas (synthesis gas) in a reforming process; and recovering the catalytic activity of said catalyst (via line 17) by utilizing heat (heat

from regenerator 20) generated by combustion of char produced in said gasification process (Col. 11, lines 20-25 and Col. 12, lines 55-59).
